honeycomb
BLINDS

INTERIOR *Solutions*

Honeycomb blinds is considered as energy efficient blinds for homes or office.

Providing insulation, it keeps the room warmer in winter and cooler in summers.

Combined with our range of stylish colors and designs, the Honeycomb blind range is the perfect solution for any room or office.

panel
BLINDS

INTERIOR *Solutions*

Panel blinds are a clever curtain design which looks like large panels of fabric that have the ability to stack together nicely when opened. This design allows for maximum light being introduced into a space.

Panel blinds are the best option for covering sliding doors. They can be made to cover large areas, these are available in endless fabrics and colors, and are easy to slide open and closed.

Panel glides are effective at blocking light and creating privacy depending on the type of fabric you choose and can be used as room dividers.

FLOORING

INTERIOR *Solutions*

The emphasis on achieving a natural look in the production of laminate flooring. Intensive coloring, natural-looking surface structures, a particular brilliance and a feel like real wood make our laminate really stand out.

Laminate is resistant to impacts, shocks, pressure, scratches and abrasion hence the life is extremely good. and because of its natural character its naturally the natural choice of most of the Interior Designers and Decorators.

As far as design goes, getting creative is one of the reasons why carpet tiles are so popular. On one hand you can mix and match with blocks of carpet tiles and on the other, you have carpet rolls, which can sometimes be a little bit more tricky to shake up visually. Choose from our wide range of designs and patterns.
